All rod gland kits are pre-packed and ready for easy and quick installs.

Rod Gland Drains are available with the standard, viton, epr, and buna kits; just add "D" to the end of the gland kit part number. *Example: RG003530040D*

Standard seal kit includes Buna and Polyurethane materials

EPR equals Ethylene Propylene Material

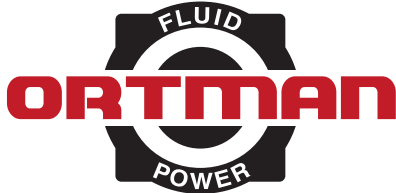

Don't forget the Magnalube-G® assembly grease. Available in a 3/4 oz. tube as OFP part no. 147. (Not included with service kits)

The cast iron rings are not included in the Tube Seal Repair Kits.

The cast iron rings must be purchased separately and the quantity that is listed is per cylinder.

The cast iron rings are butt-cut which require alternating the gap during installs.
